*Career Fair Representative(s):*

*Mark Sausen, PhD, Vice President, Research and Development*

*Alexandra Smith*

Personal Genome Diagnostics (PGDx) is empowering the fight against cancer by unlocking actionable information from the genome. We are committed to developing a portfolio of regulated tissue-based and liquid biopsy genomic products for laboratories worldwide. We help pharmaceutical/biotechnology companies and researchers develop the personalized medicines of the future and our CLIA-certified facility provides personalized cancer genome analyses to patients and their physicians. Our expertise in advanced cancer genome analysis ranges from sample preparation and sequencing to data interpretation and analysis. We specialize in high-throughput next-generation sequencing, proprietary algorithms to identify alterations in complex cancer genomes and have developed novel technologies for non-invasive approaches in cancer.

**Employer Industry Area:** Biotechnology

**Types of Opportunities Employer is Recruiting:** Full Time positions | Internships

**Location(s) of Current Employer Opportunities:** Baltimore, MD

**Fields of Study Employer is Recruiting:** All Biomedical PhD fields of study

**Types of Graduate Students / Postdoctoral Fellows Employer Recruits:** PhD candidates and/or recent alumni

**Employer Work Authorization Restrictions:** US Citizens, Permanent Residents and international students requiring sponsorship
